

PRO 14000 Watt Portable Generator

For demanding contractor or whole house back-up

Coleman **Powermate**
PORTABLE
GENERATORS

Features and Benefits:

- ✦ 25 HP Electric Start Subaru V-twin OHV engine
- ✦ 14000 Running watts
17500 Maximum watts
- ✦ Overhead valve (OHV) engine provides improved fuel efficiency, longer life, easier maintenance, and less noise
- ✦ 8 gallon gas tank provides up to 6 hours of run time @ 50% load
- ✦ Control panel with four 120 volt outlets with GFCI, one 120v 50 amp receptacle, one 120/240 volt locking outlet, and circuit breaker protection
- ✦ Equipped with low oil shutdown to protect the engine
- ✦ Idle control reduces fuel consumption by decreasing engine speed when all electric loads have been turned off
- ✦ Patented Cordkeeper™ holds cord securely in outlet
- ✦ 13" pneumatic tires provide greater portability
- ✦ Dual folding handles allows for easy storage
- ✦ 2 year limited warranty
