360° Rotatable

## More Value For The Money

The AL 5000 light tower is Amida's answer to the demands of the growing construction and rental markets for more economical and efficient equipment.

By working closely - from design to installation - with many of the country's leading construction firms, Amida has been able to recognize potential problems and respond with products and accessories that solve them.

Incorporating many of the features of Amida's top-of-the-line LT Series towers, the AL 5000 is a top-rate investment. Consider what this tower has to offer:

- Self-braking, erecting and extending hand-operated winch with self-lubricating aircraft cable is mounted inside the cabinet.
- Both doors have acoustic foam sound insulation and pneumatic gas lift springs.
- Wiring system is numbered for easy tracing.
- Storage racks for light fixtures are also inside cabinet.
- Single point lifting eye and forklift pockets provided for easy loading and unloading.
- Trailer is constructed of heavy-duty welded tubular steel.

Products shown may have optional equipment.

**Other Performance-Proven AL 5000 Features**

**Retractable power cord** automatically recoils into protective rotatable mast (tower) sleeve to prevent damage when raising, lowering and moving tower.

**Galvanized outriggers** with pre-set position stops insure quick and proper spacing for safe operation in heavy winds.

Individual **plug-in ballasts** installed in galvanized steel boxes. Can be replaced without disconnecting wiring terminals.

**Spring-loaded pin** automatically locks galvanized 360° rotatable tower in upright position.

Light fixtures plug into **weatherproof receptacle box** at top of tower with UL and CSA-approved connectors.

**Control panel** is inside, away from the elements. Houses main and branch circuit breakers and hourmeter.

**Buy The Equipment  
Contractors  
Rent Most**

Amida floodlight systems are designed with the rental customer in mind. Since more contractors rent Amida than any other brand, it's not surprising what system they choose when they're ready to buy.

**Worldwide Distribution  
Network Provides  
Parts and Service**

With a network of factory-trained distributors and dealers in many of the major markets around the world, Terex Amida can provide parts and service assistance to help keep downtime at a minimum. Terex Amida products also carry a full-year limited warranty on parts and labor.
